The purpose of this assignment is to practice working with HTML Form elements and newer HTML5 Form attributes.

The following screenshots show HTML forms using various form input elements. Next to each form, I have specified the type of each form element, and values for various form element attributes.

Your task is to use an HTML editor to recreate each of the HTML forms below. You can place all the forms on one html page, or place each form on a separate html page.

**Example 1**:

textbox
name = name
placeholder= first and last name
required

textbox
name = city
value = Hartford

textbox
name = email
required

select
name = hearAboutUs
options = (Internet, TV, Magazine )

submit
value = Submit Form

The corresponding solution for **Example 1**  is on the next page:

```
<!DOCTYPE html>
<html>
<head></head>
<body>

<h2>Customer Information</h2>

<form id="contact">

  <label>Name *</label>
  <input name="custname"  placeholder="first and last name"  required="required" /> <br/>

  <label>City</label>
  <input name="city"  value="Hartford" /><br/>

  <label>E-mail *</label>
  <input name="email"  required="required" /><br/>

  <label>Where did you hear about us?</label>
  <select name="hearAboutUs" >
     <option value="internet">Internet</option>
     <option value="mag">TV</option>
     <option value="news">Magazine</option>
  </select>

  <br/><br/>

  <input type="submit" value="Submit Form" />

</form>

</body>
</html>
```

**Example 1 – Solution**

Create the solution above. Make sure you specify

**<!DOCTYPE html>**

as above, to specify an HTML5 document. This is because we are using newer HTML5 form attributes.

**1. Recreate the form below:**

Callouts pointing to form fields:

- **textbox** — name = name, required
- **textbox** — name = email, required
- **textbox** — name = state, placeholder = MA
- **textarea** — name = comment, cols = 40, rows = 4, placeholder = Enter comment
- **submit** — value = Submit Comment

Form window content:

Comment Form - Mozilla Firefox

Capital Co...    Seth Freem...    Comme... ✕

file:///Z:/Fall 2012/CST 150    Google

# Post Your Comments

Name *  [          ]
E-mail *  [          ]
State  [ MA ]
Comment
[ Enter comment ]

[ Submit Comment ]

**2. Recreate the form below:**

**Payment Form**

**All fields are REQUIRED**

First Name [          ]
Last Name [          ]
Street Address [          ]
City [          ]
State [          ]
ZIP/Postal Code [          ]
Credit Card Type
  ○ MasterCard
  ○ VISA
  ○ Discover
Credit Card Number [          ]
Expiration Date [--Month-- ▼] [--Year-- ▼]
Special Notes
[enter notes here...          ]

[Submit Payment]

**Labels (right side):**

textbox
name = fname

textbox
name = lname

textbox
name = address

textbox
name = city

textbox
name = state

textbox
name = zip

radio
name = cardtype
value = MasterCard

radio
name = cardtype
value = VISA

radio
name = cardtype
value = Discover

text
name = cardnum

select
name = expMonth
options = (Jan, Feb, Mar, … , Dec)

select
name = expYear
options = (2013, 2014, … , 2018 )

submit
value = Submit Payment

textarea
name = comment
cols = 30
rows = 8
placeholder = Enter comment

**3. Recreate the form below:**

**In this example, you determine the attributes of each form element above.**
